

Channel Systems

These products allow vertical movement whilst offering horizontal restraint. The channel system tends to be face-fixed while the slot is usually cast into concrete. These systems may be used to overcome differences in coursing between masonry leaves.

Product

V98 Dovetail Wire Tie

A universal head enables this tie to be used with all Vista channel systems to restrain brickwork. The wire section allows for extra movement.

Sizes (Projection):

100mm	200mm
125mm	225mm
150mm	250mm
175mm	

Performance

V98 for up to 135mm Cavity

Tensile Load (cast in V29)	2960N
Tensile Load (surface 28/15)	5284N
Tensile Load Mortar End	2200N
Compressive Load Capacity	1160N

Safety Precautions

V98 Dovetail Wire Ties are manufactured from sheared plate and strip so may contain sharp edges. Suitable personal protection should always be used when handling/installing these products.
