

TLPWRBPLAIN PVC-u Window Reveal Bead

Data sheet

Issue Date:
June 2026

PVC-u Beads

PVC-u beads are now being used more and more, particularly in areas of high rainfall or extreme damp conditions. They provide an economical alternative to stainless steel products and are used in the same way as normal galvanised or stainless steel beads. They are manufactured from white high density polyvinylchloride high impact window grade material. Other colours are available and manufactured to order. The face of the bead is ribbed and perforated to produce a good plaster or mortar key and can be easily cut to size using a hacksaw.

TLPWRBPLAIN PVC-u Window Reveal Bead

A PVC window reveal frame bead used to create a perfect finish and connection of plaster/render with window frames. The bead incorporates a self adhesive foam tape which helps to eliminate seasonal cracking between frame and plaster/render. The extra self adhesive snap-off part allows for sheeting and plastering / painting before removal showcasing a perfect, clean substrate without any mess or overspray. Internal and external use.

Benefits

- Simple installation (with plaster dabs or appropriate fixings)
- Cost effective
- Easy to cut (by use of tin snips or fine tooth saw)
- Non corrosive

Standard: Meets the equivalent standards required for metal bead to BS EN 13658-2:2005

Material: Exterior grade impact resistant UV stable unplasticized PVC-u

Code	Size	Per Box	Weight
TLPWRBPLAIN6	2.4m x 6mm	60 lengths	7.2kgs
TLPWRBPLAIN9	2.4m x 9mm	60 lengths	8.8kgs

Goods to be stored and transported laying down and in dry conditions.

Please dispose or recycle in accordance with waste management regulations.
